BRUCE JESSOP PRODUCER

Biography

Bruce Jessop was born in Edmundston, New-Brunswick, Canada. For close to forty years has been involved in international business, photojournalism and publishing.

He is the founder of International Hockey Archives, one of the world's largest ice hockey photo agencies with archives dating back from 1881 to the present, with coverage in most major hockey centers worldwide. And services most major hockey revues, magazines, player cards and books internationally. He is also co-founder of Eishockey World and Ice Hockey World magazines distributed throughout Europe and North America.

An acclaimed photojournalist and former Canadian Press photographer. As a color matching expert, media companies, sports teams, professional players and fans everywhere seek after his work. He is perhaps best known and respected, for his endless dedication to the art of quality work in any product or service he is engaged in.

Bruce's special passion is the researching of amazing products and technologies in the alternative health and energy fields to reduce the burden of dependency on humanity. He is also advising on the perception of higher states of consciousness and inter-dimensional perception adapted in Project Safespace as well as investigating forbidden truths through consciousness.
